

NoteBuddy AI

VOICE TO SMART NOTES &
PPT GENERATOR

Team members:

Srivalli

Hemaswi

Simi Ayana

PROBLEM STATEMENT

Current Problems

- Students spend hours making notes.
- Meetings require manual note-taking.
- PPT creation takes a lot of time.
- Important discussion points are often missed.

PROPOSED SOLUTION

NoteBuddy AI : Records voice automatically

- Records voice automatically
 - Uploads the recording
 - Converts speech into text
 - Generates organized notes
 - Analyzes the content
 - Creates PowerPoint content
 - uses X402 API before giving ppt
 - Automatically generates a PPT
- 

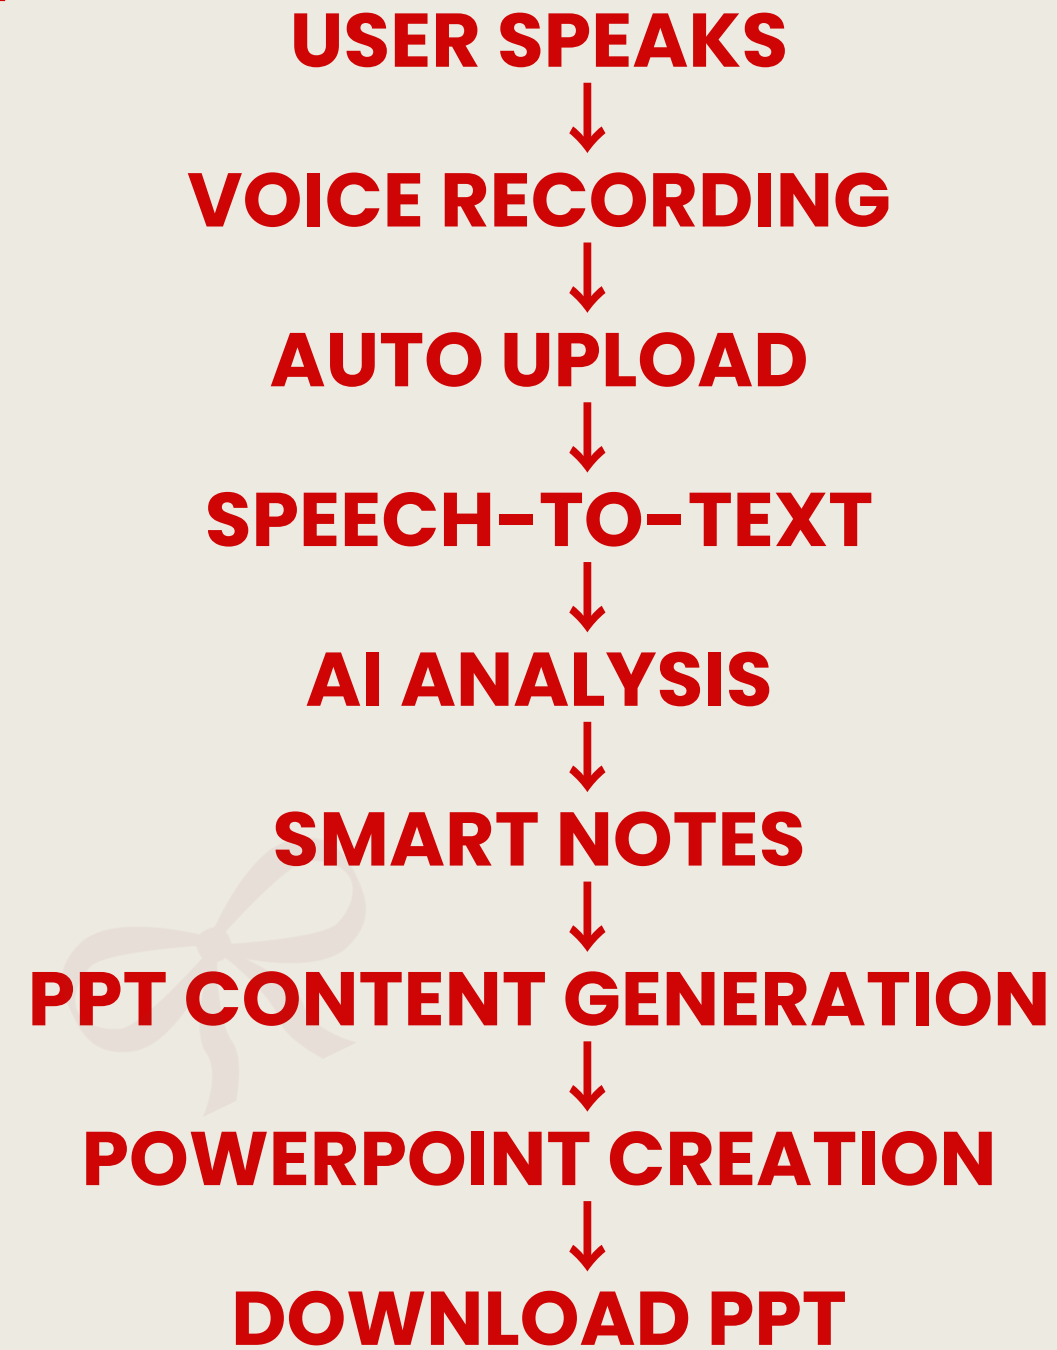

OBJECTIVES

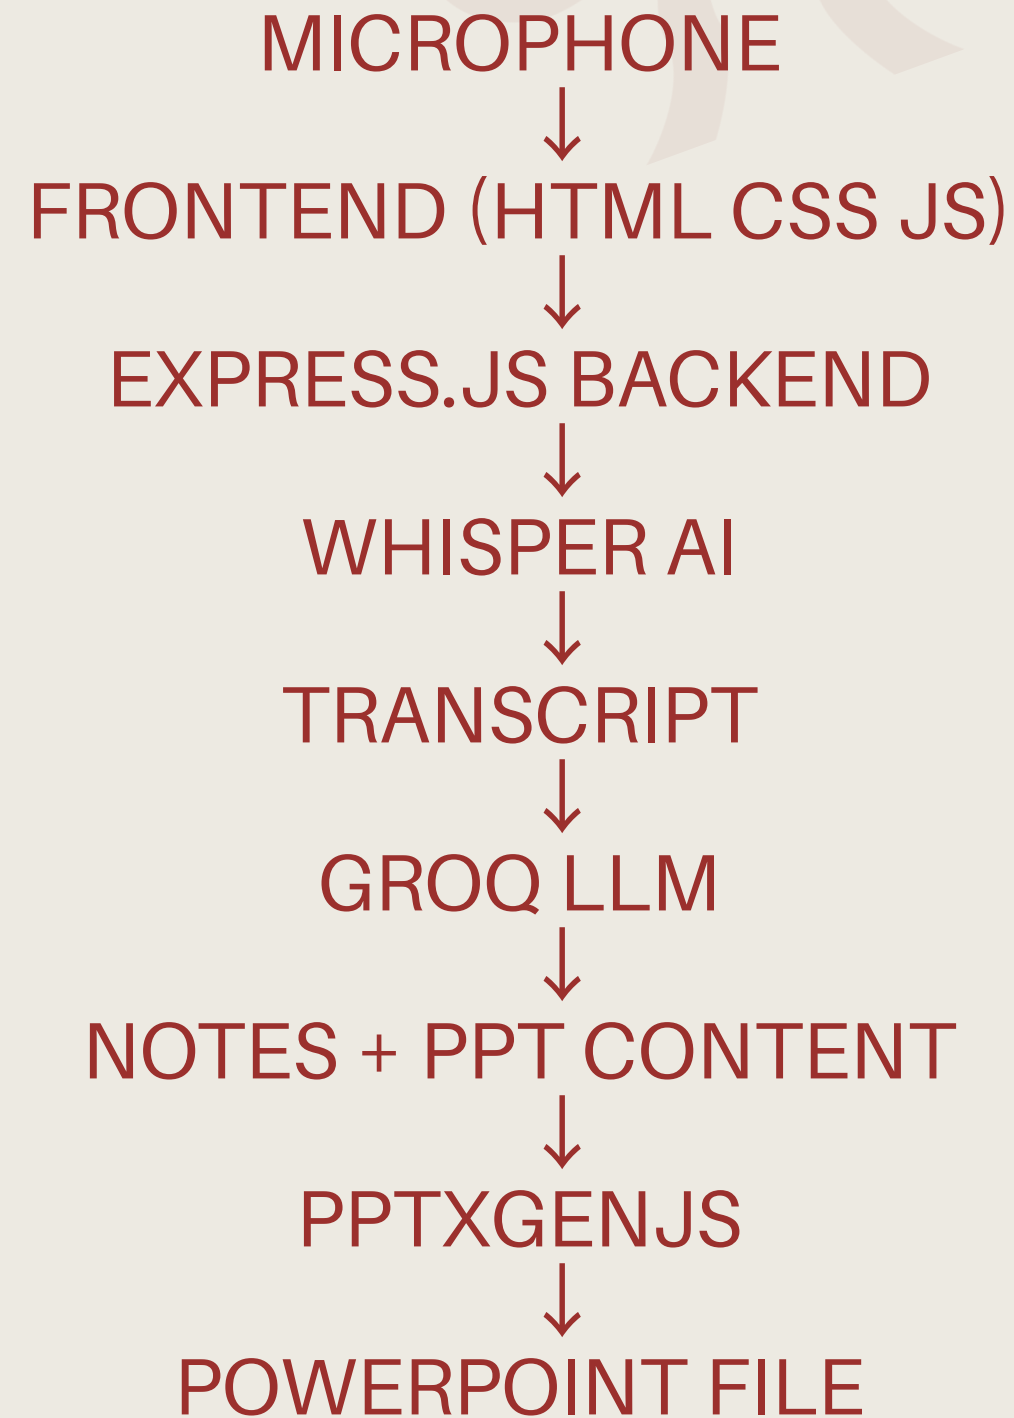

- Save students time
- Reduce manual work
- Improve note accuracy
- Generate professional presentations
- Increase productivity using AI

Presentation Generation

ADVANTAGES

- Saves Time
- Easy to Use
- Reduces Manual Work
- Accurate Notes
- Professional PPT
- Student Friendly
- Meeting Friendly
- AI Powered

APPLICATIONS

- Students
- Teachers
- Online Classes
- Meetings
- Workshops
- Seminars
- Corporate Training
- Research Discussions

FUTURE ENHANCEMENTS

- Multi-language Support
- PDF Generation
- Mind Maps
- Diagram Generation
- Cloud Storage
- Login System
- Voice Translation
- Team Collaboration

RESULTS

- RECORDING SUCCESSFUL
- TRANSCRIPT GENERATED
- NOTES CREATED
- AI ANALYSIS COMPLETED
- PPT GENERATED SUCCESSFULLY

CONCLUSION

NoteBuddy AI simplifies the entire process of converting spoken discussions into organized notes and professional presentations. It eliminates manual effort, improves productivity, and provides an efficient AI-powered solution for students, teachers, and professionals.

Thank You
